

## TwentyOne Skills

### Good Scientific Practice: Introduction and General Principles

#### Objective

This eLearning is not only about avoiding pitfalls in referencing, building up a hypothesis and plagiarism, but specifically to educate you about good scientific practice and the awareness of securing and protecting others' and your own intellectual property. The focus of this series is on the German scientific system.

#### Description

- Basic principles of good scientific practice
- Ethics, data management, and accessibility
- Authorship and usage rights
- Specific examples and exercises

#### Conditions

In cooperation with TwentyOne Skills, GRADE offers about 35 asynchronous online courses.

The 3-month sessions start at the beginning of January, April, July and October.

Registration is possible at any time. Confirmed participants can access the courses for 3 months at the online platform of TwentyOne Skills.

The registration link can be found here: <https://tinygu.de/en21skills>
